Activity 03 - Channel Choice for a Time-Critical Hotel Service Failure

Course: Mastering the Art of Communication to Enhance Team Collaboration and Customer Satisfaction

Course Code: TGS-2023037467

Alignment: K2, K4, A1

Version: v10.1 | 17 August 2026

Scenario

At Meridian Bay Hotel, a water-pressure problem affects 28 rooms during a sold-out weekend. Engineering needs 45 minutes to diagnose it. Front Office must brief guests, Housekeeping needs room-impact data, and the General Manager wants a record of decisions. Previous incidents produced conflicting chat messages and duplicate compensation offers.

Role cards

Role 1: Incident lead

Represent this stakeholder's legitimate needs, constraints, risks, and preferred outcome. Do not disclose private role assumptions until the debrief.

Role 2: Engineering lead

Represent this stakeholder's legitimate needs, constraints, risks, and preferred outcome. Do not disclose private role assumptions until the debrief.

Role 3: Front Office manager

Represent this stakeholder's legitimate needs, constraints, risks, and preferred outcome. Do not disclose private role assumptions until the debrief.

Role 4: Guest-relations lead

Represent this stakeholder's legitimate needs, constraints, risks, and preferred outcome. Do not disclose private role assumptions until the debrief.

Role 5: Decision recorder

Represent this stakeholder's legitimate needs, constraints, risks, and preferred outcome. Do not disclose private role assumptions until the debrief.

Scenario questions

1. Which messages require a rich channel and why?
2. What must be recorded after the huddle?
3. How will guests receive consistent information across shifts?
4. Which metric shows the channel portfolio worked?
