WSQ | WORKPLACE COMMUNICATIONS

Mastering the Art of Communication to Enhance Team Collaboration and Customer Satisfaction

Turn every conversation into coordinated action—and every handoff into customer trust.

Course Code: TGS-2023037467
Trainer: Dr. Alfred Ang
Version v10.0 | 16 August 2026

Tertiary Infotech Academy Pte Ltd | UEN 201200696W

SECTION 00

Course Administration

Welcome | expectations | assessment | resources

The conversation is the work—make it observable, repeatable, and trustworthy.

Digital Attendance | TRAQOM · SSG

1

AM

Scan and submit the morning attendance QR code.

2

PM

Scan and submit the afternoon attendance QR code.

3

ASSESSMENT

Complete the separate assessment digital attendance.

4

75% MINIMUM

Attendance and competent assessment outcome are funding requirements.

About the Trainer

Dr. Alfred Ang

Principal Trainer | Tertiary Infotech Academy

ROLE	Principal Trainer and learning architect
SPECIALISM	Workplace communication, AI and digital transformation
APPROACH	Evidence-led, scenario-rich and outcomes focused
FACILITATION	Coaching, role play, feedback and applied practice
ORGANISATION	Tertiary Infotech Academy Pte Ltd
CONTACT	enquiry@tertiaryinfotech.com

Let’s Know Each Other

1. **Name and role**
2. A communication moment you want to improve
3. One customer or team outcome that matters
4. What makes you feel heard at work

Ground Rules

1

BE PRESENT

Devices silent; give the speaker full attention.

2

BE CURIOUS

Ask before assuming; challenge ideas with respect.

3

BE PRACTICAL

Test language in realistic workplace scenarios.

4

BE SAFE

Keep shared cases confidential and give specific feedback.

Two-Day Learning Journey

Learning Outcomes

1

LO1

Evaluate workplace communications practices for the organisation.

2

LO2

Develop a communications plan to implement communication strategies.

3

LO3

Identify solutions to address gaps and barriers in workplace communications.

4

CUSTOMER LENS

Connect internal collaboration to visible customer confidence.

Skills Framework Alignment

TSC

Workplace Communications
RET-COM-4002-1.1

KNOWLEDGE

K1-K5: practices, tools, culture, evaluation, coaching

ABILITIES

A1-A3: benchmark, analyse trends, develop plan

9:00 AM-6:00 PM

Lesson Plan

1. Day 1 | evaluate + benchmark
2. Day 1 | activities 01-03
3. Day 2 | plan + barriers
4. Day 2 | activities 04-08
5. Day 2 | WA + CS, 4-6 PM

Briefing for Assessment

1. **Individual, summative, open book; no discussion**
2. Use only approved course materials; phones and other materials under the table
3. Written Assessment: 1 hour; Case Study: 1 hour
4. Submit on the LMS and sign the Assessment Summary Record

OPEN BOOK | INDIVIDUAL

Assessment and Funding

WA | 1 HOUR

Five open-ended questions covering K1-K5.

CASE STUDY | 1 HOUR

Three scenario questions covering A1-A3.

COMPETENCE

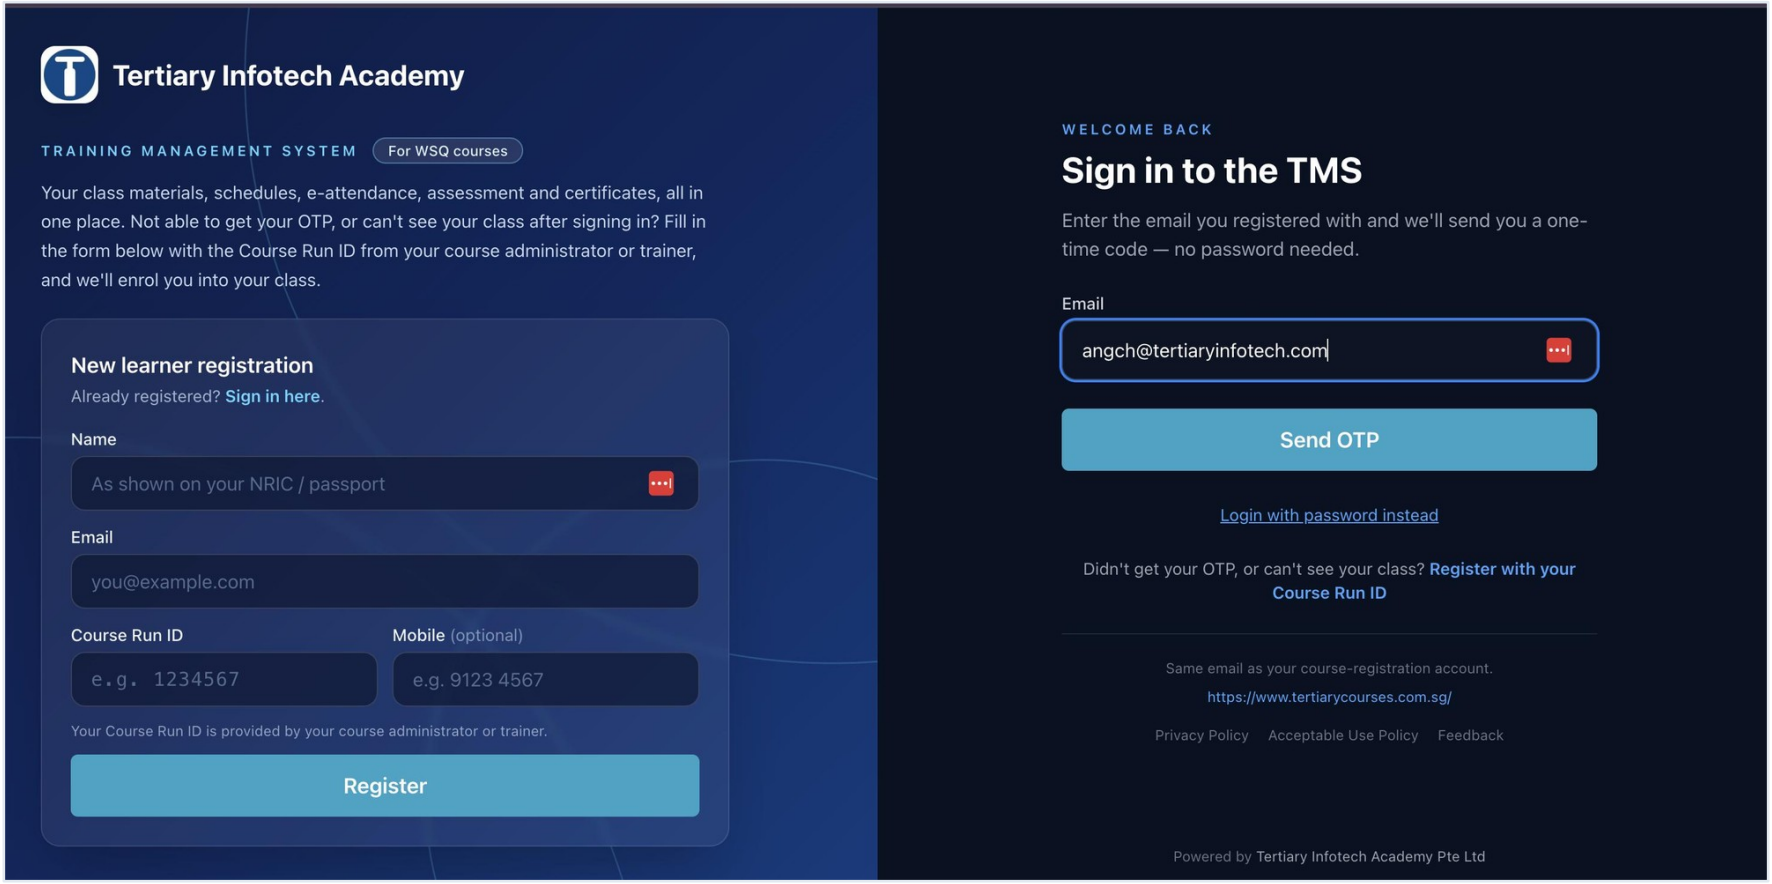

All required criteria competent; reassessment and appeal rights apply.

Assessment Flow

COURSE PORTAL

Login to LMS and Download Course Material

Log in at lms-tms.tertiaryinfotech.com with your registered email and the OTP sent to your inbox, then open this course to download the slides and Learner Guide.

Access the Course Activities

Every activity has its own folder with a realistic scenario, role-play playbook, worksheet, and acceptance checklist in Markdown and PDF.

SECTION 01

Evaluate Workplace Communications Practices

Best practices | tools and channels | culture | evidence | benchmarks | K1, K2, K3, K4, A1

The conversation is the work—make it observable, repeatable, and trustworthy.

Communication Is a Meaning System

A message is not complete when it is sent; it is complete when shared meaning is confirmed.

- **Intent begins the message**
- Encoding turns intent into words and signals
- Noise changes what is received
- Feedback closes the meaning gap

Communication Is a Meaning System | What mastery looks like

1

Intent begins the message

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Encoding turns intent into words and signals

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Noise changes what is received

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Feedback closes the meaning gap

Name the observable signal. Choose the response. Confirm what the receiver understood.

Communication Is a Meaning System | Case lens

SIGNAL

Watch for the handoff failure: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Use a closed loop: send, receive, reflect, confirm.

COMMUNICATION GURU PITCH

A message is not complete when it is sent; it is complete when shared meaning is confirmed.

Use this as the pitch line, then prove it through the use a closed loop: send, receive, reflect, confirm.

ORIGINAL COURSE MAXIM

The 7 Cs of Credible Messages

Clarity is kindness under pressure.

- **Clear: one main idea**
- Concise: remove friction
- Concrete: show evidence
- Correct: protect trust

The 7 Cs of Credible Messages | What mastery looks like

1

Clear: one main idea

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Concise: remove friction

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Concrete: show evidence

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Correct: protect trust

Name the observable signal. Choose the response. Confirm what the receiver understood.

The 7 Cs of Credible Messages | Meaning loop

COMMUNICATION GURU PITCH

“Clarity is kindness under pressure.”

Use this as the pitch line, then prove it through the rewrite around audience, purpose, context, action, timing.

ORIGINAL COURSE MAXIM

Active Listening: Listen-Paraphrase-Ask

People cooperate after they feel understood—not merely after they have been instructed.

- **Give full attention**
- Hear facts and emotion
- Paraphrase meaning, not words
- Ask an open clarifying question

Active Listening: Listen-Paraphrase-Ask | What mastery looks like

1

Give full attention

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Hear facts and emotion

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Paraphrase meaning, not words

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Ask an open clarifying question

Name the observable signal. Choose the response. Confirm what the receiver understood.

Active Listening: Listen-Paraphrase-Ask | Case lens

SIGNAL

Watch for the unheard colleague: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Listen without rehearsing; reflect; clarify; then respond.

COMMUNICATION GURU PITCH

“People cooperate after they feel understood —not merely after they have been instructed.”

Use this as the pitch line, then prove it through the listen without rehearsing; reflect; clarify; then respond.

https://www.youtube.com/watch?v=aDMtx5ivKK0

Nonverbal Alignment

When words and signals disagree, trust follows the signal.

- **Posture signals openness**
- Facial expression signals safety
- Tone carries intent
- Timing and silence create space

Nonverbal Alignment | What mastery looks like

1

Posture signals openness

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Facial expression signals safety

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Tone carries intent

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Timing and silence create space

Name the observable signal. Choose the response. Confirm what the receiver understood.

Nonverbal Alignment | Meaning loop

COMMUNICATION GURU PITCH

“When words and signals disagree, trust follows the signal.”

Use this as the pitch line, then prove it through the align voice, face, posture, pace, and context.

ORIGINAL COURSE MAXIM

Choose the Channel by Communication Richness

The best channel is the one that protects meaning at the speed the situation requires.

Urgency: how fast must meaning move?

Ambiguity: how much nuance is needed?

Reach: who must receive it?

Record: what evidence must remain?

Choose the Channel by Communication Richness | What mastery looks like

1

Urgency: how fast must meaning move?

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Ambiguity: how much nuance is needed?

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Reach: who must receive it?

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Record: what evidence must remain?

Name the observable signal. Choose the response. Confirm what the receiver understood.

CASE LENS

Choose the Channel by Communication Richness | Case lens

SIGNAL

Watch for the wrong channel: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Match rich channels to ambiguity; persistent channels to record and scale.

COMMUNICATION GURU PITCH

“The best channel is the one that protects meaning at the speed the situation requires.”

Use this as the pitch line, then prove it through the match rich channels to ambiguity; persistent channels to record and scale.

ORIGINAL COURSE MAXIM

Digital Communication Without Context Loss

Digital speed is useful only when it does not outrun understanding.

- **Lead with purpose**
- Make the ask visible
- Separate facts from interpretations
- Escalate from text when emotion or ambiguity rises

Digital Communication Without Context Loss | What mastery looks like

1

Lead with purpose

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Make the ask visible

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Separate facts from interpretations

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Escalate from text when emotion or ambiguity rises

Name the observable signal. Choose the response. Confirm what the receiver understood.

Digital Communication Without Context Loss | Meaning loop

COMMUNICATION GURU PITCH

Digital speed is useful only when it does not outrun understanding.

Use this as the pitch line, then prove it through the use subject, context, action, owner, deadline; move to voice for nuance.

ORIGINAL COURSE MAXIM

Culture Shapes Who Speaks and How

Silence can mean agreement, uncertainty, respect, or fear—never guess when you can ask.

- **Power distance**
- Direct versus indirect expression
- Individual versus collective orientation
- Tolerance for uncertainty

Culture Shapes Who Speaks and How | What mastery looks like

1

Power distance

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Direct versus indirect expression

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Individual versus collective orientation

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Tolerance for uncertainty

Name the observable signal. Choose the response. Confirm what the receiver understood.

Culture Shapes Who Speaks and How | Case lens

SIGNAL

Watch for the silent meeting: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Invite multiple channels, normalize dissent, and clarify decision rules.

COMMUNICATION GURU PITCH

“Silence can mean agreement, uncertainty, respect, or fear—never guess when you can ask.”

Use this as the pitch line, then prove it through the invite multiple channels, normalize dissent, and clarify decision rules.

ORIGINAL COURSE MAXIM

Audit Workplace Communication

What gets discussed may improve; what gets measured can be managed.

Collect: surveys, interviews, observations, artefacts

Map: audience, channel, message, handoff

Measure: reach, understanding, action, trust

Benchmark: current state, target, external practice

Audit Workplace Communication | What mastery looks like

1

Collect: surveys, interviews, observations, artefacts

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Map: audience, channel, message, handoff

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Measure: reach, understanding, action, trust

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Benchmark: current state, target, external practice

Name the observable signal. Choose the response. Confirm what the receiver understood.

Audit Workplace Communication | Meaning loop

COMMUNICATION GURU PITCH

“What gets discussed may improve; what gets measured can be managed.”

Use this as the pitch line, then prove it through the triangulate evidence and benchmark suitability, not popularity.

ORIGINAL COURSE MAXIM

Communication Drives Customer Satisfaction

The customer experiences the quality of your internal conversations.

- **Internal clarity reduces handoff errors**
- Expectation setting reduces surprise
- Empathy protects dignity
- Closed-loop recovery restores confidence

Communication Drives Customer Satisfaction | What mastery looks like

1

Internal clarity reduces handoff errors

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Expectation setting reduces surprise

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Empathy protects dignity

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Closed-loop recovery restores confidence

Name the observable signal. Choose the response. Confirm what the receiver understood.

Communication Drives Customer Satisfaction | Case lens

SIGNAL

Watch for the service recovery: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Acknowledge, clarify, own, act, update, and confirm recovery.

COMMUNICATION GURU PITCH

The customer experiences the quality of your internal conversations.

Use this as the pitch line, then prove it through the acknowledge, clarify, own, act, update, and confirm recovery.

ORIGINAL COURSE MAXIM

REAL-WORKPLACE PRACTICE

Activity 01 | Communication Audit at EverBright Electronics

K1, K2, K3, K4, A1

EverBright Electronics assembles smart-home devices in Singapore. Sales promises customised delivery dates, Operations works from a weekly spreadsheet, and Customer Care learns of delays only after customers call. Employee pulse comments show that junior staff hesitate to challenge optimistic deadlines. Three enterprise customers have escalated late orders in the last month.

ROLE PLAY

Rehearse the decision with Audit lead, Sales representative, Operations planner.

EVIDENCE

Produce communication journey map and evidence-based gap analysis.

QUALITY GATE

Uses at least three evidence types.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Activity 02 | Active Listening and Customer Recovery at NovaCare Clinics

K1, K5, A1

A patient arrives for a specialist appointment that was moved by the call centre but not updated in the clinic schedule. The patient has taken unpaid leave and is visibly frustrated. The receptionist has a full queue, the nurse knows a slot may open, and the duty manager must restore trust without promising what the clinic cannot deliver.

ROLE PLAY

Rehearse the decision with Customer/patient, Frontline receptionist, Duty manager.

EVIDENCE

Produce observer scorecard and recovery conversation script.

QUALITY GATE

No interruption during the customer's opening.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Activity 03 | Channel Choice for a Time-Critical Hotel Service Failure

K2, K4, A1

At Meridian Bay Hotel, a water-pressure problem affects 28 rooms during a sold-out weekend. Engineering needs 45 minutes to diagnose it. Front Office must brief guests, Housekeeping needs room-impact data, and the General Manager wants a record of decisions. Previous incidents produced conflicting chat messages and duplicate compensation offers.

ROLE PLAY

Rehearse the decision with Incident lead, Engineering lead, Front Office manager.

EVIDENCE

Produce channel decision matrix and incident huddle script.

QUALITY GATE

Each channel choice is justified.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Topic 1 | Evidence of competence

PROOF OF SHARED MEANING

A recommendation is credible when the evidence, audience need, channel choice, behaviour, owner, and measure all point in the same direction.

Lunch Break

60 minutes

Pause the noise. Return with attention.

SECTION 02

Develop a Communications Plan

goals | audiences | messages | channels | cadence | measures | K3, K4, A2, A3

The conversation is the work—make it observable, repeatable, and trustworthy.

A Plan Is a Behaviour-Change System

A communication plan is not a calendar of messages; it is an architecture for coordinated action.

- **Business outcome**
- Audience behaviour
- Message and proof
- Channel and cadence

A Plan Is a Behaviour-Change System | What mastery looks like

1

Business outcome

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Audience behaviour

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Message and proof

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Channel and cadence

Name the observable signal. Choose the response. Confirm what the receiver understood.

A Plan Is a Behaviour-Change System | Case lens

SIGNAL

Watch for the announcement-only plan: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Start with the behaviour that must change, not the channel you want to use.

COMMUNICATION GURU PITCH

“A communication plan is not a calendar of messages; it is an architecture for coordinated action.”

Use this as the pitch line, then prove it through the start with the behaviour that must change, not the channel you want to use.

ORIGINAL COURSE MAXIM

Set Outcome-Based Objectives

If the objective cannot be observed, the message cannot be improved.

- **Specific audience**
- Observable action
- Measurable result
- Time boundary

Set Outcome-Based Objectives | What mastery looks like

1

Specific audience

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Observable action

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Measurable result

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Time boundary

Name the observable signal. Choose the response. Confirm what the receiver understood.

Set Outcome-Based Objectives | Meaning loop

COMMUNICATION GURU PITCH

“If the objective cannot be observed, the message cannot be improved.”

Use this as the pitch line, then prove it through the write objectives as audience + behaviour + measure + deadline.

ORIGINAL COURSE MAXIM

Read the Environment

Context is the invisible audience in every message.

- **External trends and customer expectations**
- Workforce composition and engagement
- Technology and channel patterns
- Operational risk and change load

Read the Environment | What mastery looks like

1

External trends and customer expectations

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Workforce composition and engagement

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Technology and channel patterns

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Operational risk and change load

Name the observable signal. Choose the response. Confirm what the receiver understood.

Read the Environment | Case lens

SIGNAL

Watch for the trend blind spot: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Use evidence to decide what employees need, fear, and can realistically absorb.

COMMUNICATION GURU PITCH

Context is the invisible audience in every message.

Use this as the pitch line, then prove it through the use evidence to decide what employees need, fear, and can realistically absorb.

ORIGINAL COURSE MAXIM

Segment Audiences by Need and Influence

There is no such thing as a general audience—only people with different stakes.

- **Decision makers**
- People who implement
- People affected
- Advocates and resistors

Segment Audiences by Need and Influence | What mastery looks like

1

Decision makers

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

People who implement

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

People affected

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Advocates and resistors

Name the observable signal. Choose the response. Confirm what the receiver understood.

Segment Audiences by Need and Influence | Meaning loop

COMMUNICATION GURU PITCH

“There is no such thing as a general audience—only people with different stakes.”

Use this as the pitch line, then prove it through the map influence, impact, current belief, desired action, and preferred channel.

ORIGINAL COURSE MAXIM

Design a Message House

Strong messages are simple enough to repeat and substantial enough to trust.

- **Core promise**
- Three proof pillars
- Audience relevance
- Clear call to action

Design a Message House | What mastery looks like

1

Core promise

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Three proof pillars

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Audience relevance

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Clear call to action

Name the observable signal. Choose the response. Confirm what the receiver understood.

Design a Message House | Case lens

SIGNAL

Watch for the inconsistent messaging: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Create one spine; tailor examples and tone without changing the truth.

COMMUNICATION GURU PITCH

“Strong messages are simple enough to repeat and substantial enough to trust.”

Use this as the pitch line, then prove it through the create one spine; tailor examples and tone without changing the truth.

ORIGINAL COURSE MAXIM

Build a Channel Portfolio

One message, many moments: repetition works when each channel adds value.

- **Face-to-face for ambiguity and trust**
- Video/voice for nuance at distance
- Written channels for scale and record
- Visuals for patterns and recall

Build a Channel Portfolio | What mastery looks like

1

Face-to-face for ambiguity and trust

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Video/voice for nuance at distance

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Written channels for scale and record

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Visuals for patterns and recall

Name the observable signal. Choose the response. Confirm what the receiver understood.

Build a Channel Portfolio | Meaning loop

COMMUNICATION GURU PITCH

One message, many moments: repetition works when each channel adds value.

Use this as the pitch line, then prove it through the assign each channel a role; remove duplicate noise.

ORIGINAL COURSE MAXIM

Assign Cadence, Ownership, and Escalation

A plan without ownership is a wish with formatting.

- **Owner and approver**
- Send date and response window
- Listening mechanism
- Escalation trigger

Assign Cadence, Ownership, and Escalation | What mastery looks like

1

Owner and approver

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Send date and response window

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Listening mechanism

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Escalation trigger

Name the observable signal. Choose the response. Confirm what the receiver understood.

Assign Cadence, Ownership, and Escalation | Case lens

SIGNAL

Watch for the ownerless update: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Use a RACI-like operating rhythm and pre-agreed escalation path.

COMMUNICATION GURU PITCH

“A plan without ownership is a wish with formatting.”

Use this as the pitch line, then prove it through the use a raci-like operating rhythm and pre-agreed escalation path.

ORIGINAL COURSE MAXIM

Measure Reach, Understanding, Action, and Trust

Clicks measure contact; behaviour measures communication.

Reach: who received it?

Understanding: what did they take away?

Action: what changed?

Trust: do they believe and speak up?

Measure Reach, Understanding, Action, and Trust | What mastery looks like

1

Reach: who received it?

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Understanding: what did they take away?

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Action: what changed?

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Trust: do they believe and speak up?

Name the observable signal. Choose the response. Confirm what the receiver understood.

Measure Reach, Understanding, Action, and Trust | Meaning loop

COMMUNICATION GURU PITCH

“Clicks measure contact; behaviour measures communication.”

Use this as the pitch line, then prove it through the use leading and lagging indicators with a learning loop.

ORIGINAL COURSE MAXIM

REAL-WORKPLACE PRACTICE

Activity 04 | Audience and Objective Design for GreenLoop Logistics

K3, K4, A2, A3

GreenLoop Logistics is introducing route-optimisation software that changes driver schedules and customer delivery windows. Union representatives worry about workload, dispatchers fear losing autonomy, drivers want practical support, and key customers want reliability. Engagement data shows lower trust among night-shift employees and higher mobile usage than email readership.

ROLE PLAY

Rehearse the decision with Change communication lead, Operations sponsor, Driver representative.

EVIDENCE

Produce trend and statistics interpretation and audience map.

QUALITY GATE

Uses provided evidence rather than stereotypes.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

REAL-WORKPLACE PRACTICE

Activity 05 | Build the HarborCare Communications Plan

K2, K3, K4, A2, A3

HarborCare Home Services is consolidating two service teams while launching a same-day customer callback standard. Employees need clarity on roles; supervisors need coaching tools; customers need confidence that continuity will improve. The launch is six weeks away, and previous changes suffered from announcement-heavy communication with little listening.

ROLE PLAY

Rehearse the decision with Communication planner, Executive sponsor, People manager.

EVIDENCE

Produce one-page communication plan and message house.

QUALITY GATE

All plan fields have owners.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Topic 2 | Evidence of competence

PROOF OF SHARED MEANING

A recommendation is credible when the evidence, audience need, channel choice, behaviour, owner, and measure all point in the same direction.

Afternoon Break

10 minutes

Pause the noise. Return with attention.

SECTION 03

Address Communication Gaps and Barriers

diagnosis | difficult conversations | coaching | solutions | K5, A3

The conversation is the work—make it observable, repeatable, and trustworthy.

Diagnose the Barrier Before Prescribing

Miscommunication is a symptom; diagnosis finds the system that produced it.

- **Physical and access barriers**
- Language and knowledge barriers
- Emotional and psychological barriers
- Structural and cultural barriers

Diagnose the Barrier Before Prescribing | What mastery looks like

1

Physical and access barriers

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Language and knowledge barriers

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Emotional and psychological barriers

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Structural and cultural barriers

Name the observable signal. Choose the response. Confirm what the receiver understood.

Diagnose the Barrier Before Prescribing | Case lens

SIGNAL

Watch for the quick-fix training: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Locate where meaning broke: sender, message, channel, receiver, feedback, or context.

COMMUNICATION GURU PITCH

“Miscommunication is a symptom; diagnosis finds the system that produced it.”

Use this as the pitch line, then prove it through the locate where meaning broke: sender, message, channel, receiver, feedback, or context.

ORIGINAL COURSE MAXIM

Regulate Before You Communicate

You cannot de-escalate a room you are still escalating inside yourself.

- **Notice the trigger**
- Name the emotion
- Pause and breathe
- Choose the next useful move

Regulate Before You Communicate | What mastery looks like

1

Notice the trigger

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Name the emotion

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Pause and breathe

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Choose the next useful move

Name the observable signal. Choose the response. Confirm what the receiver understood.

Regulate Before You Communicate | Meaning loop

COMMUNICATION GURU PITCH

You cannot de-escalate a room you are still escalating inside yourself.

Use this as the pitch line, then prove it through the pause, clarify, make one point, and check the response.

ORIGINAL COURSE MAXIM

Bridge Cultural and Language Differences

Curiosity is the shortest bridge across difference.

- **Use plain language**
- Avoid idioms and assumptions
- Invite clarification without shame
- Confirm shared interpretation

Bridge Cultural and Language Differences | What mastery looks like

1

Use plain language

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Avoid idioms and assumptions

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Invite clarification without shame

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Confirm shared interpretation

Name the observable signal. Choose the response. Confirm what the receiver understood.

Bridge Cultural and Language Differences | Case lens

SIGNAL

Watch for the cross-cultural misread: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Ask what the message means in context; offer multiple ways to respond.

COMMUNICATION GURU PITCH

“Curiosity is the shortest bridge across difference.”

Use this as the pitch line, then prove it through the ask what the message means in context; offer multiple ways to respond.

ORIGINAL COURSE MAXIM

Assertive Communication with I-Statements

Assertiveness is clarity with respect—for yourself and the relationship.

State observable behaviour

Name the impact or feeling

Explain why it matters

Request a specific alternative

Assertive Communication with I-Statements | What mastery looks like

1

State observable behaviour

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Name the impact or feeling

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Explain why it matters

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Request a specific alternative

Name the observable signal. Choose the response. Confirm what the receiver understood.

Assertive Communication with I-Statements | Meaning loop

COMMUNICATION GURU PITCH

“Assertiveness is clarity with respect—for yourself and the relationship.”

Use this as the pitch line, then prove it through the use: when x happens, i feel/observe y because z. i request a.

Difficult Conversations: Facts, Meaning, Relationship

A hard conversation becomes productive when the problem is placed between people—not inside one person.

- **Separate observations from stories**
- Surface each person's meaning
- Protect dignity
- Agree the next testable action

Difficult Conversations: Facts, Meaning, Relationship | What mastery looks like

1

Separate observations from stories

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Surface each person's meaning

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Protect dignity

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Agree the next testable action

Name the observable signal. Choose the response. Confirm what the receiver understood.

Difficult Conversations: Facts, Meaning, Relationship | Case lens

SIGNAL

Watch for the blame cycle: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Open with shared purpose; compare views; decide actions; follow up.

COMMUNICATION GURU PITCH

“A hard conversation becomes productive when the problem is placed between people—not inside one person.”

Use this as the pitch line, then prove it through the open with shared purpose; compare views; decide actions; follow up.

ORIGINAL COURSE MAXIM

De-escalate Without Surrendering the Standard

Calm is not weakness; it is control made visible.

- **Lower pace and volume**
- Acknowledge emotion
- Set respectful boundaries
- Offer choices and next steps

De-escalate Without Surrendering the Standard | What mastery looks like

1

Lower pace and volume

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Acknowledge emotion

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Set respectful boundaries

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Offer choices and next steps

Name the observable signal. Choose the response. Confirm what the receiver understood.

De-escalate Without Surrendering the Standard | Meaning loop

COMMUNICATION GURU PITCH

“Calm is not weakness; it is control made visible.”

Use this as the pitch line, then prove it through the acknowledge, clarify, boundary, option, ownership, update.

ORIGINAL COURSE MAXIM

Coach Communication with GROW and SBI

Coaching turns feedback from a verdict into a rehearsal for better performance.

Goal: define the outcome

Reality: inspect examples

Options: rehearse alternatives

Way forward: commit and review

Coach Communication with GROW and SBI | What mastery looks like

1

Goal: define the outcome

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Reality: inspect examples

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Options: rehearse alternatives

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Way forward: commit and review

Name the observable signal. Choose the response. Confirm what the receiver understood.

CASE LENS

Coach Communication with GROW and SBI | Case lens

SIGNAL

Watch for the generic feedback: a small cue that shared meaning is breaking.

RISK

Uncorrected ambiguity becomes rework, silence, conflict, or a broken customer promise.

BETTER MOVE

Use Situation-Behaviour-Impact, then rehearse the next conversation.

COMMUNICATION GURU PITCH

Coaching turns feedback from a verdict into a rehearsal for better performance.

Use this as the pitch line, then prove it through the use situation-behaviour-impact, then rehearse the next conversation.

Engineer Solutions and Sustain the Loop

Training changes capability; systems decide whether capability survives.

- **Redesign process and channel**
- Build skill and scripts
- Clarify roles and decision rights
- Measure and reinforce

Engineer Solutions and Sustain the Loop | What mastery looks like

1

Redesign process and channel

Name the observable signal. Choose the response. Confirm what the receiver understood.

2

Build skill and scripts

Name the observable signal. Choose the response. Confirm what the receiver understood.

3

Clarify roles and decision rights

Name the observable signal. Choose the response. Confirm what the receiver understood.

4

Measure and reinforce

Name the observable signal. Choose the response. Confirm what the receiver understood.

Engineer Solutions and Sustain the Loop | Meaning loop

COMMUNICATION GURU PITCH

“Training changes capability; systems decide whether capability survives.”

Use this as the pitch line, then prove it through the combine people, process, channel, governance, and measurement interventions.

ORIGINAL COURSE MAXIM

Activity 06 | Repair a Cross-Cultural Hybrid-Team Misunderstanding

K3, K5, A3

A Singapore-based product manager tells a regional colleague that a proposal is 'quite ambitious'. The colleague interprets this as approval and commits the date to a customer. Text messages become defensive, two team members stop contributing, and the weekly video meeting now avoids the issue.

ROLE PLAY

Rehearse the decision with Product manager, Regional account lead, Facilitator.

EVIDENCE

Produce barrier diagnosis and facilitated conversation playbook.

QUALITY GATE

Names multiple plausible barriers.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Activity 07 | Coach a Team Leader Using SBI and GROW

K5, A3

A technically strong team leader regularly gives long, rapid instructions in operations meetings and answers their own questions before staff can respond. Rework is increasing, but the leader believes the team is simply not attentive. The manager must coach without undermining confidence.

ROLE PLAY

Rehearse the decision with Coach/manager, Team leader, Employee witness.

EVIDENCE

Produce sbi feedback note and grow coaching record.

QUALITY GATE

Feedback is behaviour-specific.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

REAL-WORKPLACE PRACTICE

Activity 08 | Capstone - Northstar Mobility Collaboration and Customer Trust

K1-K5, A1-A3

Northstar Mobility launches an accessible on-demand transport service. A pilot receives strong demand but also driver confusion, inconsistent customer updates, and poor escalation of accessibility needs. Leaders need an evidence-based benchmark, an engagement-aware communication plan, and a coaching solution before the city-wide launch.

ROLE PLAY

Rehearse the decision with Programme sponsor, Communication audit lead, Workforce engagement lead.

EVIDENCE

Produce audit and suitability benchmark and trend and engagement analysis.

QUALITY GATE

Covers A1, A2, and A3 with traceable evidence.

Full scenario, role cards, playbook, questions, worksheets, and acceptance criteria are in the Learner Guide and activity PDF pack.

Topic 3 | Evidence of competence

PROOF OF SHARED MEANING

A recommendation is credible when the evidence, audience need, channel choice, behaviour, owner, and measure all point in the same direction.

SECTION 99

Integration

From isolated techniques to a communication operating system

The conversation is the work—make it observable, repeatable, and trustworthy.

The Communication Operating System

What You Achieved

1

EVALUATE

Diagnose communication practice with evidence and benchmarks.

2

DESIGN

Build outcome-led plans for distinct audiences.

3

REPAIR

Address barriers with calm, clarity and respect.

4

COACH

Turn feedback into rehearsed workplace behaviour.

FINAL PITCH

The customer hears the echo of every internal conversation.

Build collaboration upstream, and satisfaction becomes easier to deliver downstream.

Courseware and Assessment on the LMS

1. **Download the learner slides, Learner Guide and activity pack**
2. Complete the WA and Case Study using the approved materials
3. Upload the completed documents to the LMS
4. https://lms-tms.tertiaryinfotech.com/

Assessment

WA | 1 HOUR

Open-ended knowledge questions K1-K5.

CASE STUDY | 1 HOUR

Integrated application questions A1-A3.

SUBMIT

Assessment attendance, LMS upload, and summary-record signature.

Assessment Flow

Digital Attendance | Mandatory

1

AM

Morning attendance recorded.

2

PM

Afternoon attendance recorded.

3

ASSESSMENT

Assessment attendance recorded separately.

4

COMPLETE

Confirm submission with the trainer before leaving.

Thank You

Speak with clarity. Listen for meaning. Close the loop.
